# Innovating in the construction market and decoration since 1980

Through modern, updated machinery and qualified labor, Barreto creates products aimed at the area of **civil construction and decoration**.

Currently we operate throughout the national territory and in more than 14 countries.

Our products serve both residential and corporate environments: shop windows, offices, restaurants, stores, clinics, etc.

We focus on **building products of extreme functionality**. We offer technical support, guarantee of durability and quality of our products.

# SLATTED BARRETO

## DIFFERENTIALS

You know that fame: SLATTED PANELS are an expensive and difficult product to install!

Barreto broke this taboo and INNOVATED on the market. Developed modular slatted panels ready to install, using fitting, double-sided tape and glue. Our slats are not made with the crease of the maple tape (it has no shadow), making the aesthetics even more beautiful.

- Quick assembly with the installation guide
- Easy transport in boxes of approx. 1m<sup>2</sup>
- Affordable price and available throughout
- Largest coverage area in the market

Perfect for indoor lighting: LED channels

- **Adaptable to curved walls and without square**

2 types of finishing bar

The bar is a conclusion to give refinement according to the customer's choice. It can be used on the panel in a half wall, bed headboard, among others.

STRAIGHT FINISH

L-SHAPED FINISH

# SLATTED BARRETO

## METALLIC SPACERS

Aiming at greater versatility, we now have the possibility to differentiate the color of the clapboard with that of the spacer, allowing a multitude of color variations to suit your environment.

## FLEX

The new Barreto slat line is the most innovative and functional on the market! With **flexibility for both horizontal and vertical curves**, this line has water-resistant film and has a greater depth between the clapboard and spacer, making the slatted panel even more attractive.

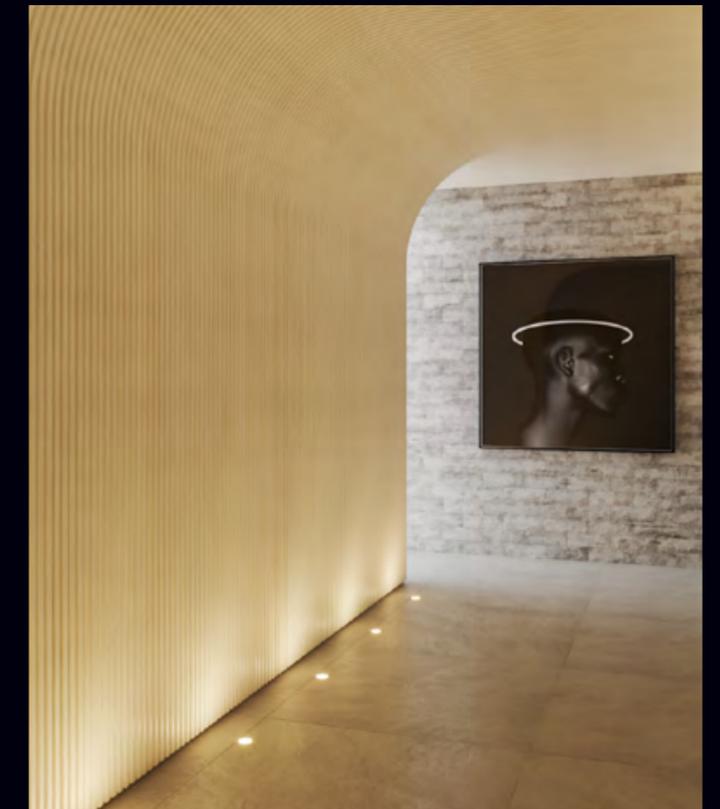

The Flex Line, in its Prime version, has 3 exclusive color options, in addition to black. Moreover, the Flex Gold version has all the standard colors available.

**FLEXIBLE TAPE + MDF + SPACER = FLEX SLATTED**

Depth options to bring a more imposing aesthetic to your slatted

FLEX	Thicknesses	Colors
Prime	- 0,35 in - 0,47 in	Black, Teka Nature, Ipê Champagne, Freijo Nature
Gold	- 0,35 in - 0,47 in - 0,71 in	All the standard colors

## TRADICIONAL or ULTRA Line

The prestigious Slatted Barreto with the best known fitting system on the market: **JUST SNAP AND GLUE.**

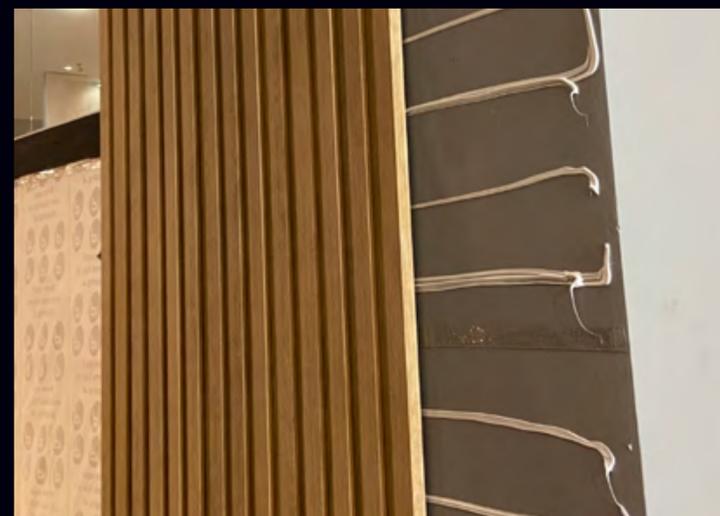

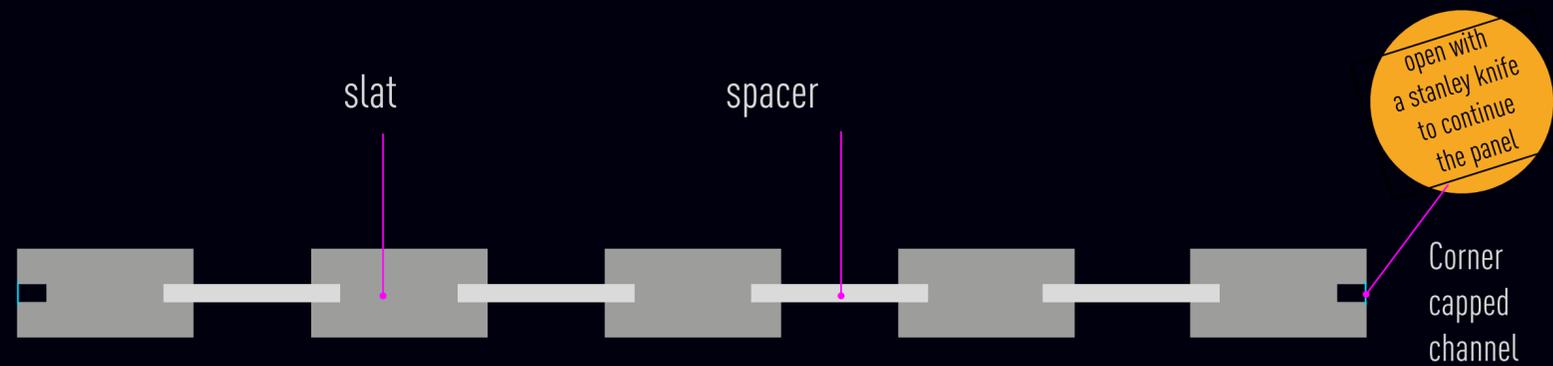

The two lines are the same in design, technology and finish, differentiating only the chosen material: water-resistant MDF with resistance to air humidity and the action of termites or common MDF.

# BREEZE PANEL

Breeze is a slatted line that works as a partition of environments, creating an attractive space.

We have 3 installation options: with guides on the base and ceiling, without the guides (only the slatted) and with pivoting pin. Translucent wood can also be used to pass internal lighting with LED.

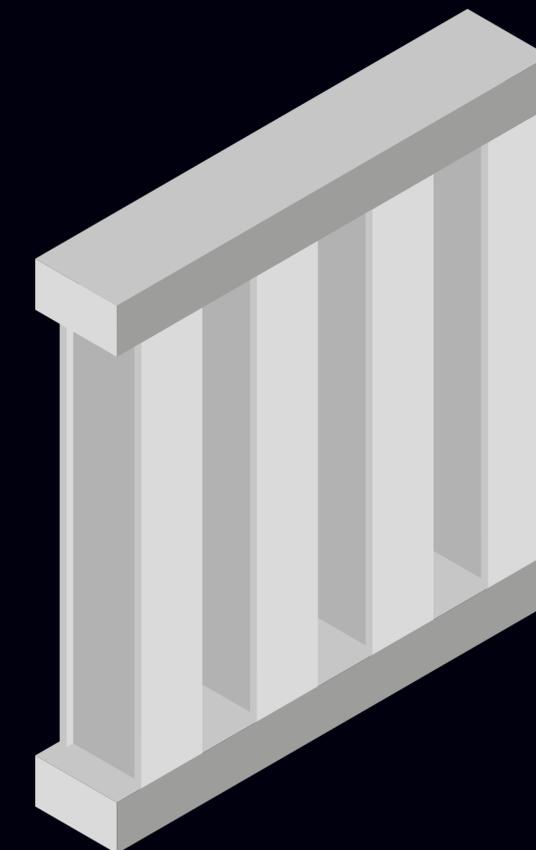

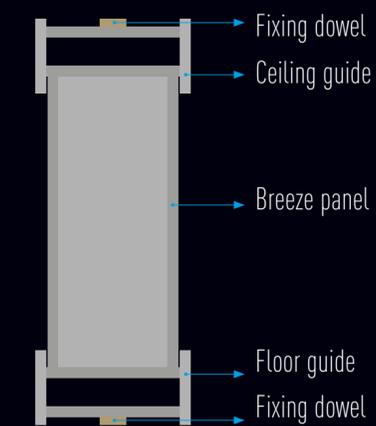

## Option WITHOUT ceiling and floor guides

Breeze mounted column - top view

## Option WITH ceiling and floor guides

Mounted guide - side view

# BREEZE Panel

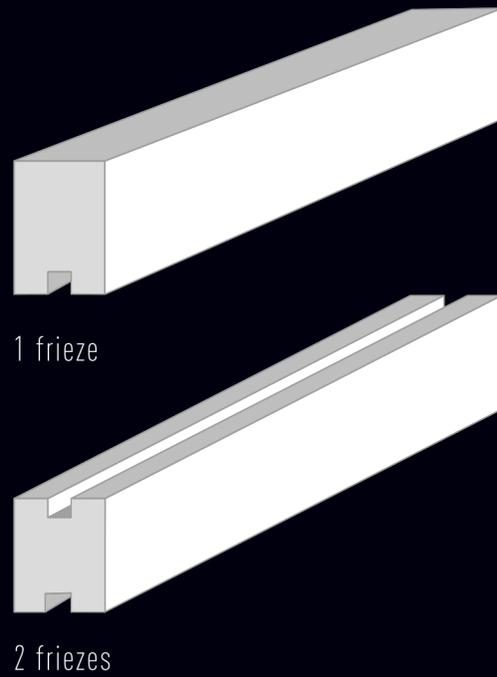

pergolas or creative and refined partitions

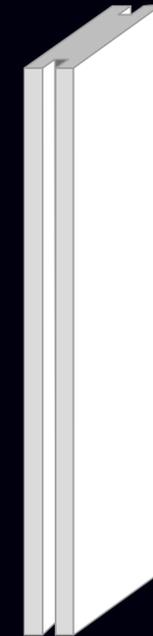

# PANEL WAINSCOTING

Another practical and simple product from Barreto. A panel with multiple functions and endless customization possibilities, composed of fitting blocks. Ideal for home and office decoration or elegant headboards.

COLOR: NUDE

COLOR: REAL WALNUT + BLACK

# PAINELFIX

## MORE PRACTICAL ASSEMBLY AND DISASSEMBLY SYSTEM

The PainelFix system is innovative because it allows the installation of Barreto slatted panels in a practical way, through modular fittings that can be installed in half a wall (headboards, countertops, etc.) without the need of double-sided tapes and glue, allowing the assembly and possible easy removal of the panels for further use in other environments, if necessary.
